

NVIDIA GEFORCE2 PRODUCT BRAND IDENTITY AND LOGO USAGE GUIDELINES

GeForce™2 Logo Usage

This guide outlines the proper usage of all NVIDIA® GeForce2 product badge logos. If you have any questions regarding these logo or brand identity guidelines, please contact the NVIDIA marketing communications department at marcom@nvidia.com.

Writing* GeForce2

The correct way of writing GeForce2 is an uppercase "G," lowercase "e," uppercase "F," followed by lowercase "orce2." The trademark follows "GeForce." In the first reference, the name GeForce should be trademarked, and preceded by "NVIDIA" in all uppercase. The company name should include a registration mark on first reference as well. For example, NVIDIA® GeForce™2.

• Writing GeForce2 MX

Write the name "GeForce2" (following the above guidelines), followed by a space, and all uppercase "MX." The model number follows the "MX," with a space separating the MX from the model number. For example GeForce™2 MX 400. Available models: GeForce2 MX 200 and GeForce2 MX 400.

• Writing GeForce2 Go

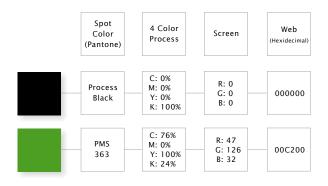

Write the name "GeForce2" (following the above guidelines), followed by a space, an uppercase "G," lowercase "o." The model number follows the "Go," with a space separating the Go from the model number. For example GeForce™2 Go 100. Available models: GeForce2 Go 100 and GeForce2 Go 200.
