

## **NVIDIA® GeForce® 7300 GPUs Messaging CONSUMER MESSAGING**

### **Best-in-class 3D graphics features and performance to play all the latest games and applications**

- Dedicated graphics processing unit (GPU) offloads the CPU and increases overall system performance
- Experience the latest gaming effects without compromising performance with Microsoft® DirectX® 9.0 Shader Model 3.0 and high dynamic-range (HDR) lighting support
- Turbocharged system performance through advanced NVIDIA® TurboCache™ technology
- Built for Windows Vista™--the next-generation Microsoft® operating system (OS)

### **Home theater-quality video on the PC with NVIDIA® PureVideo™ technology**

- Stunning, high-definition (HD) video playback with minimal CPU usage
- Superb picture clarity eliminates double images, blurring and distortions
- Precise, vivid colors on any display for a crisp, lifelike picture

### **The compatibility, stability, and reliability you expect from NVIDIA, the worldwide leader in graphics and media processors**

- Worry-free compatibility for an easy “install-and-play” experience
- Rock-solid stability and reliability with the renowned NVIDIA® ForceWare® Unified Driver Architecture (UDA)
