NVIDIA Quadro® FX Mobile Messaging

Products:
NVIDIA Quadro® FX 2500M
NVIDIA Quadro® FX 1500M
NVIDIA Quadro® FX 350M

Tagline:
Uncompromised Professional Graphics to Go

Messaging:
NVIDIA Quadro® FX 2500M
- Unprecedented levels of application performance to accelerate workflows and shorten design cycles
- Visualization of the most extensive datasets combined with the highest image quality
- Stable, compatible, and optimized for all key professional applications
- Unmatched performance scalability using adaptive power management tools
- Extended battery life when working in the field

NVIDIA Quadro® FX 1500M
- High levels of performance to accelerate workflows and shorten design cycles
- Visualization of large datasets combined with high image quality
- Stable, compatible, and optimized for all the key professional applications
- Extended battery life when working in the field

NVIDIA Quadro® FX 350M
- Stable, compatible, and optimized for all the key professional applications
- Proven performance for professional applications
- Designed for thin and light form factor and ease of mobility
- Extended battery life when working in the field
